

HYDROSTROI RILTZI AD

Bulgarien

LETTER OF RECOMMENDATION

Ref: The business activity carried out by the company GEORGH ENGINEERING Ltd - Sofia city

DEAR SIRs:

Hydrostroi Riltzi AD has been in a long-term collaboration with the company GEORGH ENGINEERING Ltd, as a permanent partner when realizing or activity in the field of hydro-technical construction.

For the period of our joint activity since 1996 till present the company GEORGH ENGINEERING Ltd has worked as our subcontractor and has realized on its own the following sites:

- Fortifications for the dam lake of *Belmeken - Principal and Buttress Dam*;
- *Water tower - Principal Pressure Derivation - Pumped-storage Hydro Power Plant CHAYRA* and concrete works in the second highly sloped district
- A new derivation for Water Power Plant *Pastra* - tunnels 1, 2, 3

We recommend GEORGH ENGINEERING Ltd as a correct partner whose production potential allows the performance of high quality and within a period of different in size and complexity hydro-technical sites.

Executive director:
